The story about Tripod

Designed by Lukas Dahlén

For a few moments the relationship between the organic and the inorganic is reversed. After a dramatic waltz in fire and smoke they go their separate ways, only to be united later on, formed by that first meeting. The Tripod is a part of Lukas Dahlén's examination project from Konstfack; Stockholm University College. Today Tripod is improved in order to fit production and safety standards.

Tripod is a product made on Gotland by local craftsmen. The glass bubble is hand blown with recycled glass.

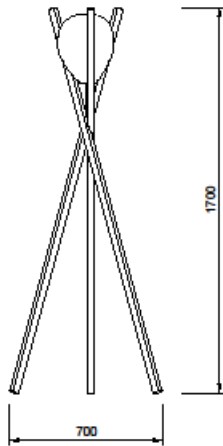

Materials

Ash and recycled opalin glass

Colours

White oiled ash, white opalin glass, white textile cable

Size (mm)

Retail price

Excluding transport

SEK 8500

€ 955
